

Practical 12: **NotebookLM Project**

Aim:

To create revision notes using NotebookLM.

Objectives:

- To generate study guide
- To create flashcards

Materials Required:

- NotebookLM

Procedure:

1. Create NotebookLM project – Start a new project in NotebookLM to organize your materials and AI-generated outputs in one workspace.
2. Upload two resources – Add two documents or sources to the project so the AI can analyze and reference them.
3. Generate study guide – Use NotebookLM's tools to create a structured study guide summarizing key concepts from the uploaded resources.
4. Generate flashcards – Automatically produce flashcards that highlight important facts, terms, or ideas for easier review.
5. Review accuracy – Carefully check the summaries and flashcards to ensure all information is correct and reflects the original resources.
6. Take screenshots – Capture screenshots of the study guide and flashcards to document your work or include them in your submission.

~OUTPUT~

The screenshot shows the Revision Notes application interface. At the top, there is a navigation bar with icons for 'Revision Notes' (RSS feed), 'PRO', a grid, and a profile picture. Below the bar are buttons for '+ Create notebook', 'Sources', 'Chat', 'Studio', and 'Mind map'. The main content area displays a message: 'Create a combined study guide using all sources'. Below this, a detailed description states: 'This combined study guide is based on the organizational structure and file listings found within the provided sources, specifically detailing the academic components and modification dates of the course material 1.' A section titled 'Combined Study Guide Overview' is shown with a dropdown arrow. Underneath, it says 'This guide details the core components of the' followed by a search bar with placeholder text 'Start typing...'. To the right of the search bar is a document icon with '(1)' and a circular arrow icon. Below the search bar are two cards: 'Detail three ways to sort files/views.' and 'How can folders be mixed with other file...'. At the bottom, a note reads 'NotebookLM can be inaccurate; please double-check its responses.'

The screenshot shows the Revision Notes application interface. At the top, there is a navigation bar with icons for 'Revision Notes' (RSS feed), 'PRO', a grid, and a profile picture. Below the bar are buttons for '+ Create notebook', 'Sources', 'Chat', 'Studio', and 'Mind map'. The main content area displays a message: '← Application Flashcards Based on 1 source'. Below this, a large dark box contains the question: 'What action is recommended when an application displays the message, 'This browser version is no longer supported''? At the bottom of this box is a 'See answer' button. At the very bottom of the screen are navigation arrows and buttons for 'Good content' and 'Bad content'.
